THE LARGEST ROSE GROWERS IN THE WORLD
WHY OUR ROSE TRADE IS BY FAR THE LARGEST IN THE WORLD

BECAUSE OUR ROSES GROW AND BLOOM

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will need and we will give you the very best prices at which first-class stock can be sold.

OUR TERMS OF SALE

CONDITIONS
The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 250 at the thousand rate, not less than three at the dozen rate. No order will be filled from Plant List for less amount than $2.00.

SUBSTITUTION
Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

PACKING
To far off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will give us their order. We will not be responsible for loss or damage in transit when so packed.

We Make No Charge for Packing.

UNKNOWN CORRESPONDENTS
Orders from unknown correspondents must be accompanied by the check of a satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS
No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE
Should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks not accepted from unknown correspondents. Where known correspondents send checks they must add 15 cents extra to each check for exchange.

SHIPPING FACILITIES
Having the rival express companies—Adams, American, National, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS
All goods are sent by express unless otherwise ordered.

PLANTS BY FREIGHT
We will not ship perishable goods by freight except under the following condition: You to give us in writing before goods are shipped, release from all loss or damage in transit.

NEW LOW EXPRESS RATE
The following notice goes on each shipment of plants where the expressage is to be collected from purchaser:

EXPRESS AGENTS—LIVE PLANTS
If not delivered upon arrival, notify both Consignee and Shipper. This package contains Plants, Bulbs and Seeds, and is carried under General Special Rate Scale N of Classification. The charges on this shipment to destination are

The amount of the expressage you will have to pay will be marked in the blank space on this notice. Whether it is or not and you think you have been overcharged, take a receipt for the payment you make and return to us, and if you have been overcharged, we will have the amount refunded to you at once, and we will collect from the agent at your end. All the trouble you will be to is to get a receipt and send it to us. The saving under Special Rate Scale N is from 20 to 33 per cent.

PLANTS PREPAID BY EXPRESS
To patrons in California and other far-off points we make a specialty of packing plants so as to make the expressage light, the expressage when prepaid being eight cents per pound. So, if you wish to avoid expressage, when the rate is high, add one-fifth additional to your remittance, and we will prepaid same through to destination.

IN FILLING YOUR ORDERS
We shall do our best to make every shipment satisfactory and profitable to you. In every case where we fail to do this from any cause, do not hesitate to report to us at once. We believe in liberal count, careful labeling and light, secure packing.

ADDRESS

THE GOOD & REESE COMPANY,  
(THE LARGEST ROSE GROWERS IN THE WORLD)  
Champion City Greenhouses,  
SPRINGFIELD, OHIO.
G. & R. ROSES
AND THE OTHERS.

YES, FORCING ROSES ARE RUNNING OUT and no wonder. From the time the cutting is taken until
the plants are dug from the forcing benches and thrown out, the method pursued is absolutely wrong. There
is not one iota that can be said in favor of the method—they are the others. Get G. & R. SUMMER PROPA-
GATED WINTER RESTED OWN ROOT ROSES. Get them in March or April and pot into three-inch pots;
they will supply their own legs to stand on without going to the grafting factory. You are in a rut, better
get out. This means you. One grower from Chicago paid us a visit for Roses. He said something was the
matter, the forcing Roses were running out. Just think of it; have to graft Brides and Maids. Isn't it pre-
posterous on the face of it! Our advice: Try G. & R. summer propagated own root Roses, and your troubles
about weakness will be a thing of the past.

Nurserymen Should Grow Their Own Field Roses and Save the Middlemen's Profits.

Do you grow your own Roses? If not, why not? By growing them yourselves you have them fresh
at hand ready to supply your customers. They are very profitable to grow; nothing you handle will have
larger profits. Everyone engaged in the nursery business should grow and sell Roses. Try it on a small
scale at first and always remember to plant Good & Reese Roses, the kind that grow and bloom.

— PEONIES —

In this book you will find a fine collection of Peonies offered. We started some years ago to grow
Peonies and we believe that no firm in this country has such a large planting of valuable sorts. Our en-
deavor is always to lead and not follow in any branch of the floral business we undertake. We will make
Good & Reese Peonies as much of a household word as Good & Reese Roses are. So do not forget us when
in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian.

the center. The most fragrant of all Roses; a gem. 60 cents per dozen; $4.00 per hundred.

BABY RAMBLER—It is in bloom all the time, flowers in large clusters of brightest crimson. It grows to
a height of eighteen inches and hides the plant with its bloom. A most wonderful Rose. 50 cents

and as free as a Tea Rose. The flowers are me-
medium in size, well formed, globular, light ros-
crimson, almost the color of Alfred Colomb; as
fragrant as the Hybrid Perpetuals, which it much
resembles in form; every shoot produces a bloom;
one of the most promising Roses of the year.
Should be tried by all. 60 cents per dozen; $3.50

pink; base of petals saffron; large, full and free.

THE GOOD & REESE COMPANY, FLORISTS AND SEEDSMEN.

ETOILE DE FRANCE—The gold medal Rose of France, and claimed by the raiser, J. Per- net Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine, rich color, deliciously fragrant. What more can be said of a Rose? 50 cents per dozen; $3.50 per hundred.

FLORENCE PEMBERTON—One of the grandest of all new Roses for outdoor culture. It is a splendid grower, the bloom is perfection itself in way of shape and size, the color a lively pink, edged whiter. A refined flower that is both beautiful and fragrant, and will have many admirers. 60 cents per dozen; $4.00 per hundred.

FREIHERR VON MARSCHALL—As an outdoor Rose it has no superior. The flowers are large, beautifully shaped, double and full, borne in wonderful profusion all through the growing season. It is bright red, one of the brightest. If not the very best red Tea Rose in existence, fine, long, well-shaped buds. 60 cents per dozen; $4.00 per hundred.

GENERAL McARTHUR—A new Rose that is already a fixture in many gardens. Color brilliant scarlet, a very bright-colored Rose of good size and double; very free blooming and fragrant. Many claim for this that it will rank with Helen Gould as a red Rose. It has certainly shown up well with us the past two seasons. We advise trying this Rose. 60 cents per dozen; $3.50 per hundred.

GRUSS AN SANGERHAUSEN—Flowers large, full and elegantly formed; color reddish-scarlet, center deeper; buds long and pointed; very free and continuous; foliage and habit excellent. This looks like the red Rose for the million. 75 cents per dozen; $5.00 per hundred.

HELEN GOOD (Tea.)—This is a true Cochet Rose, and after two years' trial in the garden we pronounce it as good if not better than any Rose for the garden. We bought the entire stock of this Rose from the introducers, paying them $1,000 for two plants, this being by far the highest price ever paid for any Rose. The color is a delicate yellow, suffused with pink, each petal edged deeper, very chaste and beautiful. The color, size, shape, and exquisite form, makes it without question the greatest Tea Rose ever introduced and we are proud to have brought it out. To try it. Is genuine Cochet. (See illustration, page 5.) 75 cents per dozen; $5.00 per hundred.

INNOCENT SIRDEY—Free, upright branching habit; bud reddish-yellow, opening deep gold; large and full; one of the most promising of fancy colored Roses. 60 cents per dozen; $4.00 per hundred.

JOSEPH HILL—This fine new Rose produces a long pointed bud of the color of Austrian Copper, flushed bright red and rose. This is ranked as the best of the parti-colored Roses and will unquestionably have a future. 60 cents per dozen; $4.00 per hundred.

KILLARNEY—Siebrecht, the great Fifth avenue (New York) florist, claims that this is the finest pink Rose ever introduced. He used it almost exclusively during the past year for the great society decorations of New York. In coloring it is especially beautiful, being an exquisite shade of deep shell-pink, while the flowers are enormous in size, the petals being frequently two and one-half inches deep. 60 cents per dozen; $4.00 per hundred.

LA DETROIT—The new Detroit Rose, which has been so largely advertised and exhibited. Shell-pink, shading to soft rose, reverse of petals cream colored, fragrance like that of old Bon Silene. In form it is large, cup-shaped; petals shell-like; rich, glossy foliage; a rampant, vigorous grower, making fine plants, and is unexcelled for cutting. 50 cents per dozen; $3.00 per hundred.

LADY BATTERSEA (The Red Kaiserin)—In the English gardens this Rose is very popular, its novelty and charm lying in its unusual coloring and its long and graceful buds. Called by many the Red Kaiserin. The buds are full and pointed and of a beautiful cherry-crimson, perfumed with an orange shade. We recommend this as one of the easiest and best. 50 cents per dozen; $3.50 per hundred.
MADAME ANTOINE MARI—This is a grand Rose for the garden and lawn and sure to give satisfaction. It is a clean, handsome grower, and resembles in this respect that famous old variety Marie Van Houtte. An early and profuse bloomer, both buds and flowers are extra large and beautiful. The form resembles a nice Camellia bloom. Color creamy-white, flushed with rosy-red. First-class in every way. 60 cents per dozen; $4.00 per hundred.

MADAM JENNY GILLEMOT—Buds long and pointed, deep saffron-yellow, opening to creamy-yellow, center nankin-yellow, reverse of petals carmine; extra. A few bushes of a Rose of this character producing such an abundance of brightness at all times are a great acquisition to any Rose garden. 50 cents per dozen; $3.50 per hundred.

MADAME PHILIPPE RIVOIRE—Very free branching in growth, foliage deep bronze-green; flowers large and full and globular; color apricot-yellow, center nankin-yellow, reverse of petals carmine; extra. A few bushes of a Rose of this character producing such an abundance of brightness at all times are a great acquisition to any Rose garden. 50 cents per dozen; $3.50 per hundred.

MADAME LEON PAIN—Robust growth; smooth wood; handsome plum-colored foliage; flowers large, full and free in opening; silvery-salmon, center orange-yellow, reverse bright red and yellow. In our gardens the past summer it has at all times been a grand sight, bearing a great profusion of exceedingly large brilliant Roses. 50 cents per dozen; $3.50 per hundred.

MAGNAFRANO—This Rose is becoming popular because of its splendid crimson-scarlet color, large and magnificent buds. The flowers are large, very regular; full and double, and delicately sweet. 60 cents per dozen; $4.00 per hundred.

MRS. BENJAMIN R. CANT—A splendid new garden Rose of round, full form and solid color, clear, bright, rosy-pink, large size, double and fragrant. The most vigorous grower of all Tea Roses. It is an excellent garden Rose—has come to stay. 50 cents per dozen; $3.50 per hundred.

O. A. SINGER—A fine garden Rose of clear carmine color, deepening to the center of the flower. It flowers very continuously and freely, especially fine in September. This grand variety was sent out by Mr. Peter Lang of the great German rosarian, and named by him in honor of Mr. A. Singer, of Oberhofgartner, Bad, Kissingen. 60 cents per dozen; $4.00 per hundred.

PERLE VON GODESBURG (The Yellow Kaiserin)—This is identical with Kaiserin Augusta Victoria, the peer of any rose excellence in color, being a pure white with a yellow center. Exquisitely beautiful. 60 cents per dozen; $4.00 per hundred.

SOUVINIR DE GODESBURG (Hybrid Tea.) (Forcing.)—Color velvety-red, equal to Jacqueminosaur. It is a double Rose, and is good in bud, half open, or fully expanded. Full, open flowers, frequently six inches in diameter. A magnificent double Rose. 50 cents per dozen; $3.50 per hundred.

STRIPEP REINE MARIE HENRIETTE—Everybody in the Rose family will agree that best of all climbing red Roses, Reine Marie Henriette. It is planted more largely in Philadelphia and south of that latitude than any other variety. The color is always striped or variegated in every way except that the flowers are a bright red, distinctly striped with light. This Rose will be seen as widely as any climbing Rose when Rose lovers know its beauty. 50 cents per dozen; $3.50 per hundred.

SUNRISE (Tea.) (Forcing.)—In close bud form it shows the truly brilliant color of the Austrian Copper, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper. Inside of petals golden-yellow. Large, perfectly double and of grand form. 60 cents per dozen; $3.50 per hundred.

Helen Good. (For description see page 4.)

SUNSET (Tea.)—The color is a remarkable shade of rich golden-amber, elegantly tinged and shaded with dark, reddish copper, intensely beautiful and resembling in color a splendid "afterglow." 50 cents per dozen; $3.50 per hundred.

TRIER—Semi-double, creamy-white, producing large clusters, free and continuous. Mr. Lambert’s new Rambler. 25 cents each; $2.50 per dozen.

TAUSENDSCHON, or THOUSAND BEAUTY—a climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful. 75 cents per dozen; $5.00 per hundred.

WM. R. SMITH, or MAIDEN’S BLUSH—Have you ever seen the blush of a beautiful maiden? If so, you will readily understand why this Rose has been so named. The soft blending of the salmon-pinks and the rose-pinks and the beautiful flesh tints in this Rose give a singular resemblance to the entrance flush on a maiden’s cheek. Grown by Shellum, the noted Philadelphia florist, a grand garden Rose. 25 cents each; $1.50 per dozen; $10.00 per hundred.

WELLESLEY—First shown by one of the Massachusetts growers, Wellesley has been awarded some of the best prizes at the Rose shows all over the country. The King of Flowers Herbaceous Peonies

We offer as choice a list of Peonies as you will find in this country. To the collector the varieties named will be attractive. To those who wish to increase their stock of desirable sorts this list will appeal, and to the nurseryman and dealers who buy to sell, there will be found a choice lot of varieties at moderate cost.

We started some years ago to grow Peonies and we believe that no firm in this country has such a large planting of valuable sorts. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as Good & Reese Roses are. So do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name.

Tree Peonies

FOR IMMEDIATE OR NOVEMBER DELIVERY.

This is a remarkable species developed from P. Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub; the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference. The foliage is handsome and the immense flowers which usually appear some two weeks ahead of the herbaceous class are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; all colors. 60 cents each, $6.00 per dozen.

ORDER PHLOX NOW FOR FALL DELIVERY

PHLOX (Hardy Perennial)

The improvement made in this beautiful class of plants is, perhaps, more marked than in any other section of herbaceous hardy flowers. Instead of the thin flowers, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different hues of these colorings—pink, red, and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere. Strong healthy plants, 50 cents each, $5.00 per dozen; $35.00 per thousand. Pot plants ready April 1st. 40 cents each per dozen; $3.00 per hundred; $25.00 per thousand.
